1-0 BACKGROUND

- a. In order to rapidly and accurately identify grouped (Strike Team - Task Force) resources used on multiagency incidents throughout California, it is necessary to have a standard resource designation system. To ensure standardized training and use, this system will be included in both MACS and ICS procedures.
- b. The Resource Designation System described in this document is the result of intensive research and testing by the FIRESCOPE Program. The system is designed to meet current and projected statewide needs.

2-0 BASIC SYSTEM DESIGN

The system is based upon the application and combined use of:

- Three (3) letter designators for individual agencies and mutual aid operational areas.
- Four (4) digit "block numbering" for six (6) mutual aid regions with sub-blocks for operational areas and agencies capable of fielding grouped resources.
- Permanently assigned block numbers will allow for identification of mutual aid region, operational area or single agency, and numbering of grouped resources without duplication of numbers.
- Alphabetical lettering is used to identify kind and type of Strike Teams.
- System is compatible with manual or electronic format.

3-0 DEFINITION OF TERMS

- a. Single Resources — A single increment of any resource, considered fully operational when it has minimum numbers of personnel, equipment, etc.
Example: A single crew, engine, dozer, helicopter, etc.
- b. Task Force - A Task Force is a group of resources with common communications and a leader. Task Forces formed by agency or area dispatch centers will be designated from block numbers. If formed at the incident, they will be designated by incident name (i.e., "Sage TF 1"). Task Forces will be disassembled when the need no longer exists.

- c. Strike Team — A Strike Team is a group composed of a set number of the same kind and type of resources, with common communications and a leader. Strike Teams may be assembled by a Regional Fire and Rescue Coordinator, Operational Area Fire and Rescue Coordinator, agency dispatch centers or at the incident. Strike Teams will be released when no longer needed and returned as a unit to the incident, area or department from which they were formed.
- d. Three-Letter Designators — The three-letter designator is used to identify individual agencies or operational areas dispatching resources. All fire departments, agencies and mutual aid operational areas in California have been assigned a three-letter designator.
- e. Resource Numbers — Numbers assigned to resources for ease of tracking and communication. Numbers will define resource type and configuration.

Single Resources - Single Resources will always use their agency assigned equipment number or in the case of a crew, it may be a crew name and number.

Strike Teams - Strike Teams will be assigned numbers from a block of numbers pre-established for each operational area or agency. These numbers will be assigned sequentially.

- f. Mutual Aid Regions - The 58 counties in California are divided into six (6) mutual aid regions. Such regions are common to all emergency services. Each has a designated Region Fire and Rescue Coordinator and dispatch center.
- g. Operational Area (Mutual Aid Area) - Each county in California is an "Operational Area" with a designated Fire and Rescue Coordinator. EXCEPTIONS: (1) Los Angeles County has six (6) operational areas identified alphabetically; (2) Tahoe Basin Operational Area includes parts of three counties in California and parts of three counties in Nevada.
- h. California Department of Forestry and Fire Protection Administrative Regions - The California Department of Forestry and Fire Protection has divided the State into two geographic regions, four areas, and twenty-one (21) ranger units. CDF will assign radio numbers to be used with their three-letter identifier to designate their resources.

4-0 FORMING AND DESIGNATING STRIKE TEAMS AND TASK FORCES

Strike Teams or Task Forces can be formed and designated in the following ways:

- a. By a single agency (agency owned resources) - The agency three-letter designator will precede agency's block number.
- b. Mixed Agency - Local resources formed by Operational Area Fire and Rescue Coordinators will be designated with respective operational area three-letter identification and block number. NOTE: Mixed Federal and State Forestry resources may be designated by either agency. (A discretionary decision.)
- c. State OES Resources - These will be formed and designated by Operational Area or Region Fire and Rescue Coordinators. Three-letter "OES" designator will precede block numbers. NOTE: OES and local resources should not be mixed.
- d. Mixed Operational Area - Local resources formed from two (2) or more operational areas will be designated with the three-letter identifier and a block number of the operational area from which the leader is selected or the operational area from which the greatest number of component resources are supplied.
- e. Out-of-State/Private Resources - Resources imported from out-of-state, (i.e., federal agencies or private resources) will be designated by the agency which procures them.
- f. By a Combination of Administrative Units within same agency
 1. California Department of Forestry and Fire Protection - Combined resources of two (2) or more ranger units will be identified by the CDF region office and assign numbers.
 2. U.S. Forest Service - Combined resources of two (2) or more forests will be identified by the forest forming the strike team using its designator and block numbers.
 3. State Office of Emergency Services - OES or local resources formed from two (2) or more mutual aid regions will be identified by Sacramento OES Headquarters with OES designator and block numbers.
- g. At the Incident - Strike Teams or Task Forces assembled at the incident will be identified by incident name, for radio call, and sequentially numbered beginning with 1.

5-0 ASSIGNING STRIKE TEAM/TASK FORCE NUMBERS

The Resource Designation System utilizes the block numbering concept. All numbers include four (4) digits followed by a single letter (i.e., 1234-A). Numbers and letter indicate: mutual aid region, agency or operational area, individual group numbers, kind and type resources. NOTE: Circumstances dictate a modification for CDF - see example b.

- a. Block Numbers - The six (6) mutual aid regions will consist of six blocks of 1000 numbers each:

Example: Mutual Aid Region I - 1000 to 1999.

Sub-blocks (i.e., 1000 to 1099) may be assigned to operational area or large single agency such as L.A. City F.D. thus, four (4) digits reflect:

<u>LFD</u>	<u>1</u>	<u>0</u>	<u>01</u>	<u>A</u>
area or agency	region	area or agency	Grouped res. no.	kind & type

Any series of numbers within a region block becomes synonymous with the area or department to which it is assigned.

- b. Block Numbers (California Department of Forestry and Fire Protection)

Because CDF utilizes a four (4) digit resources numbering system on a daily basis within its administrative regions, mutual aid region block numbers might be duplicated. Thus, CDF will utilize a modified block number in the 9000 series statewide. Example: 9100 - 9199 block assigned to CDF Coast Area.

<u>CDF</u>	<u>9</u>	<u>1</u>	<u>1</u>	<u>1</u>	<u>C</u>
Agency	CDF	CDF Area	Ranger Unit	Grouped res. no.	kind & type

NOTE: CDF region will assign block numbers to individual ranger units. CDF will utilize blocks 9100, 9200, 9300, and 9400 for their area designation. This leaves 9000, and 9500 through 9900 blocks not allocated.

c. Strike Teams Alphabetical Lettering - Kind and Type

Kind and type of resources (identified in ICS 020-1 Resource Designation Listing) are identified by a single letter following block numbers, (i.e., LFD ST 1001-A).

A. Engine type 1	G. Crew type 1	K. Dozer type 1
B. Engine type 2	H. Crew type 2	L. Dozer type 2
C. Engine type 3	I. Reserved	M. Dozer type 3
D. Engine type 4	J. Reserved	N. Reserved
E. Reserved		O. Reserved
F. Reserved		

P. through Z. Not assigned - reserved for expansion.

AR. US&R Company type 1	GR. US&R Crew type 1
BR. US&R Company type 2	HR. US&R Crew type 2
CR. US&R Company type 3	IR. US&R Crew type 3
DR. US&R Company type 4	JR. US&R Crew type 4

d. Three-Letter Designator vs. Radio Call Sign - The primary purpose of the three-letter designator is to identify agency or area resources.

EXAMPLE: Recorded Designator: XOR ST 1400-A
Radio Call: "Orange area strike team fourteen hundred-ALPHA"

Recorded Designator: OES ST 1800-A
Radio Call: "OES strike team eighteen hundred-ALPHA"

RED Engine 5	OKL Engine 2563
COL Engine 1	PIE Engine 2843

9-0 REASSIGNING RESOURCES

Reassignment of resources from one incident to another can be done with the consent of the agency's owning the resources.

OES resources may be reassigned by consent of Operational Area, Region or State Fire and Rescue Coordinator, respectively.

10-0 USE OF SEQUENTIAL NUMBERS

Initial numbering of grouped resources will be assigned sequentially from the mutual aid area or individual agency block of numbers. It is recommended that numbers not be re-used on any single incident or during a period of multi-incident activity. Example: A Strike Team may be formed and numbered for a specific incident then demobilized and released. Re-use of that number during the same period of activity might cause confusion. During a period of high activity, it is recommended that all numbers in any block be used before recycling sequential numbers.
